

Herman Tournaye is full professor and chairman of the department of Gynecology-Fertility in the university hospital of Brussels. In 1986, he graduated in as a medical doctor at the Vrije Universiteit Brussel (VUB). After his training as a gynecologist in 1991, he joined the Centre for Reproductive Medicine Brussels where he became clinical and scientific director in 2011. In 1994 he obtained a PhD in medical sciences at the VUB. Apart from reproductive medicine, he has a special interest in reproductive andrology. In 2000 he started the research group BITE (biology of the testis) at the VUB focussing on the reproductive potential of testicular stem cells. He has authored 343 peer-reviewed papers, including 54 as a first and 65 as a last author. At the medical faculty he teaches developmental biology/embryology and reproductive medicine. He is coordinator of the international training centres of the European Board and College for Obstetrics and Gynecology (EBCOG) and the European Academy for Andrology (EAA), both associated to his university hospital.
